

**REBUILD
MY
CHURCH**
Capital Campaign

MARCH 23/24, 2019

CONSTRUCTION UPDATES

You may have noticed the storage pod in the church parking lot. It is being used to store electrical parts from the modular school building, as it has started its disassembling stage.

The Planning and Zoning Meeting with the village went well. The next step is to present to the village council on March 25 for final approval to move forward. After we receive this approval from the village, then we go to the county for further approvals. Please continue praying that our Lord blesses the efforts made to make the new school building ready for the coming school year.

We are tracking progress at the school. As you can see, we have quite a bit to go.
